Introductory

The present volume for the year 1962 is the fifty-fifth edition of Henderson's Directory of Regina, the first being in 1907.

Three Major Departments

The three major departments are arranged in the following order:—

I. THE BUYERS' GUIDE, printed on yellow paper, constitutes the first major department of the Directory. This embraces a complete list of the names and addresses of the business and professional concerns of the city, arranged in alphabetical order under appropriate headings — a catalog of all the activities of the city. Preceding this catalog, likewise grouped under appropriate headings, are the advertisements and business cards of firms and individuals desiring to present a more complete list of their products or services than is possible in the catalog itself. The Buyers' Guide represents reference advertising at its best, and merits the attention of all buyers and sellers seeking sources of supply or markets for goods.

II. THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is the second major department, printed on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident or Regina, and the name, official personnel, nature and address of each firm and corporation in the city.

III. THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, printed on green paper, is the third major department. In this section the numbered streets and avenues are in numerical order followed by the named streets in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of tenant-owned homes and the designation of homes and places of business having telephones.

Advertising Regina

An important function of the Directory is to set forth the characteristics and advantages of the city as a place of residence, as a business location, as an industrial site, and as an educational centre. The Directory acts as a mirror, reflecting all that is noteworthy in the city in the above respects. In order to spread this information regarding the city, the publishers have placed copies of this issue of the directory in libraries across the country where they are readily available for reference use by the public. There they serve as perpetual advertisements of Regina, for businessmen the country over realize that the City Directory represents the community as it really is.

Estimated Population of Regina, 112,500

This Directory estimate of population is based on the 1961 Dominion Census of 110,281. The Regina City Directory covers considerable territory beyond the metropolitan area, which is canvassed in order that the names of all people employed or who purchase in Regina may be obtained.

Respectfully, The Publishers,

CITY OF REGINA

(By Courtesy The Regina Chamber of Commerce)

Chief Sitting Bull made the first recorded visit to the present site of Regina when he arrived there in 1881 on his way to Wood Mountain where the Sioux made their headquarters while seeking refuge in Canada after the Custer Battle on the Little Big Horn in Montana. The locality had long been known to the natives as "Heap O' Bones," owing to the fact that a great pile of buffalo bones garnished the low hills nearby. The first settlers called the place "Pile O' Bones," and this name appeared in official documents. The name, "Wascana," given to the creek running through the area is a corruption of the Cree word for Pile O' Bones.

It was intended to name the place Victoria, in honour of the Queen, but that name had already been bestowed on the Capital of British Columbia. The matter was referred to Princess Louise, the daughter of Queen Victoria, whose husband was then Governor General of Canada, and she selected the name "Regina." The city was named as the first train arrived at nine o'clock, August 23rd, 1882. A tent settlement had sprung up in the spring of that year.

AERIAL VIEW OF REGINA

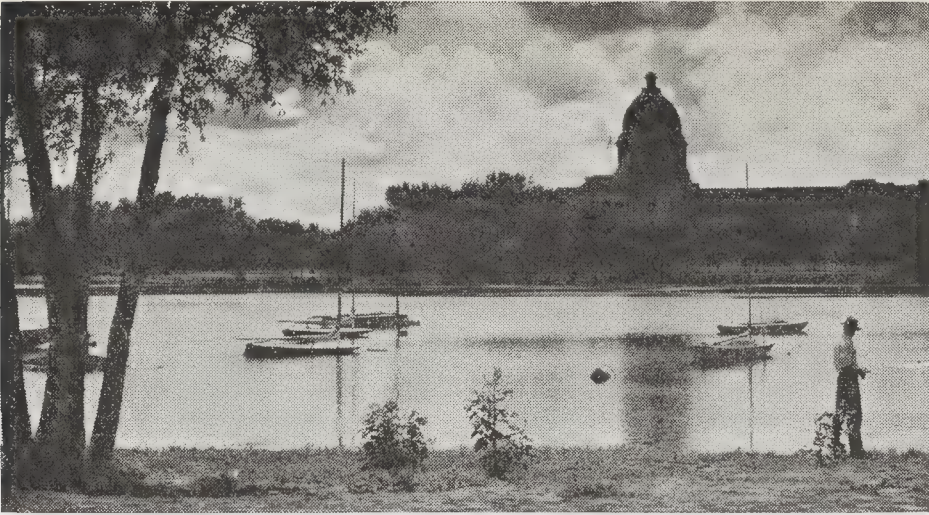

Regina was incorporated as a City in 1903, but the little community had already been the seat of Government of the North West Territories for twenty years. It became the Provincial Capital when Saskatchewan was formed in 1905.

At the time of its incorporation Regina had a population of 3,000.

Today it has a population of 112,000. While not what might be called a large city, it is the 12th largest of all Canadian Cities.

Regina is the financial centre of the Province and it holds an important place in the life of Saskatchewan by virtue of the fact that it is the Capital and by the commercial and industrial development which has taken place within it.

The Legislative Buildings are among the most stately and beautiful in Canada. They are situated on the banks of Wascana Lake and surrounded by spacious grounds which have been beautifully developed and landscaped. The building itself is regarded as an ideal structure for legislative work. It was first begun in 1908 and cost in the neighborhood of \$3,000,000.00.

**LEGISLATIVE BUILDINGS**

Regina contains Churches of many denominations and is the seat of the Anglican Diocese of Qu'Appelle and of the Roman Catholic Archdiocese of Regina.

Because of its natural attractions and the improvements which its people have made to it in the course of its short history, Regina is a very popular tourist and convention centre. Hotel accommodation is suitable for small and large gatherings and many thousands annually take advantage of its splendid facilities.

**HARVESTING ON THE REGINA PLAINS**

AGRICULTURE

Surrounding Regina is the finest grain growing district in the world. Saskatchewan is the greatest grain growing province in the Dominion and produces annually one half of the Canadian hard wheat crop. As producer of quality hard wheat Saskatchewan leads the world, having won the world's prize eleven times during the past sixteen years.

While Saskatchewan has always been considered the Premier Grain Growing Province in the Dominion there is abundant evidence that she will, in the not distant future, occupy an equally outstanding position in the realm of livestock. At the Royal Winter Fair, Toronto, and the International Exposition, Chicago, the high quality of our Saskatchewan livestock has been demonstrated over a long period of years.

A new airport terminal building has recently been completed.

Regina is favourably suited to be a central point on World routes extending from the West Coast to Europe and from Eastern and Central United States through Alaska to the Orient. It is merely at the beginning of its potential development and it is extremely fortunate that its foundations are so well laid.

BUILDING

Regina has experienced three outstanding periods of building activity. The first of these was 1911 to 1913. In these three years permits totalled over \$17,000,000. The second was the period 1926 to 1929 when building permits exceeded \$24,000,000 and the third is the period 1953 to the present (1962). For the years 1953-1961, value of building permits exceeded \$234,000,000.

SASKATCHEWAN POWER CORPORATION BUILDING

Business and public buildings are of brick or stone construction. Private dwellings are of brick, wood or stucco, the latter has become especially popular of recent years. The Legislative Building, the Hotel Saskatchewan, the Dominion Government Building, the Post Office, the Financial Building, the new Court House and the new Power Corporation Headquarters Building are a few of the structures to which Regina can refer with justifiable pride.

These organizations have representation throughout the whole Province.

The buildings which housed the World's Grain Show provide spacious exhibition facilities for the display of big units such as automobiles. The open grounds of the exhibition property are used for still larger items such as the exhibit of farm machinery. Farm machinery row at the Regina Exhibition is one of the greatest displays of farm machinery in the world.

Together with the agricultural and industrial features of the Fair, are involved numerous holiday attractions such as midway, race track, and spectacular grandstand performances. This exhibition takes place generally towards the end of July and is a big event of each year.

CENTRE FOR THE TOURIST TREK

Not only does the "Queen City of the Plains" have much of interest, beauty and historical value to give the visitor, but it offers the nearest centre from which roads lead off to the wonderland of Saskatchewan, into the hills, the lakes, by tree-lined roads, into the glory of the pine-clad north.

To reach this city of the plains, and Capital of the Province, you travel through a fascinating country. A land of thrilling spaciousness, a boundless, rolling plain of fertile soil and far stretched fields of waving grain, the land of appealing beauty, of long days of sunshine, glorious colorful sunsets, clear air—a land that holds you in its spell and calls you back when you are gone.

On the southern shore of Lake Wascana are the magnificent grounds and buildings of the Provincial Government. Visitors are always welcome and can visit the library and reading rooms during the day.

In the library will be found many relics of great historical value, chief of which is the Confederation Table. Around this massive board sat Fathers of Confederation who brought the scattered parts of the settled East into the unity which today, as the Dominion of Canada, holds a place of high reward among all countries of the world.

One should not fail to visit the beautiful new building of Natural History Museum, College and Albert. Here, in lifelike form, can be seen the birds and animals that make their home upon the prairies.

Recreational and entertainment facilities afford a varied selection for pleasure under ideal surroundings, and short distances take the visitor to cooling sandy beaches on lakes in the historical Qu'Appelle Valley and Last Mountain Lake.

Out of Sight — Out of Mind — Out of Business —

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

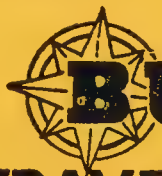

THE CITY DIRECTORY IS THE NATURAL MEDIUM FOR KEEPING
A BUSINESS OR PRODUCT NAME IN THE SPOTLIGHT.

INSIST ON BEING WELL REPRESENTED IN ITS PAGES.

Do your employers furnish you with the latest edition of the City Directory?

You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

DIRECTORY SYMBOLS AND DESIGNATIONS

IN ADDITION to names and addresses, your City Directory contains much detailed information concerning the people of your community. In order to list this information certain symbols and designations have been developed which enable important statistics to be compressed into the smallest possible space. You will receive far greater benefits from your City Directory if you familiarize yourself with the symbols and what they stand for.

In checking credit applications, in conducting direct mail advertising programs, in planning sales campaigns, in building prospect lines, and in scores of other ways your City Directory will prove of invaluable assistance.

KNOW YOUR DIRECTORY SYMBOLS

PLEASE! Do Not Lend Your CITY DIRECTORY

IT COSTS YOU MONEY Every Time It is Loaned

The practice of lending your City Directory, in a great measure, is responsible for the increasing cost of Directory Service.

The reason is:—

There is a definite cost involved in the making of the Directory of Your City.

This cost must be absorbed by the subscribers—be they one—or be they 1,000.

If there was but One Subscriber to the City Directory—the One Subscriber would of necessity have to absorb The Whole Cost.

If there were 1,000 Subscribers—each one would have to absorb 1/1,000 Part of the Whole Cost.

From which it is obvious that the Greater the number of subscribers—the Lesser the cost to each.

Every time you loan your City Directory the Less Necessity there is for the Borrower to subscribe for the Service.

More Borrowers result in Fewer Subscribers, which means Increased Cost.
